MESSAGE FROM THE INITIATORS & PATRONS

The economic and political ties between Germany and India are stronger than ever before and the mutual business is growing rapidly. As global players and leading economies, Germany and India can rely on each other as equal partners.

India currently tops the list of fastest growing economies of the coming decade. With its huge domestic market and as a powerhouse in information and communication technologies with numerous young and successful startups, India offers massive potential for Germany. Germany in return offers technological advantage in the areas of manufacturing, infrastructure and energy which are strong growth sectors in India.

Therefore, the German-Indian Business Forum 2018 will focus on 'Digital Transformation, Urbanization and Infrastructure Development'. The Forum is a platform for high-ranking decision makers from the areas of business, politics and administration to confer on matters of mutual interest.
